SIXTH YEAR.

MAYSVILLE, KY., TUESDAY, JULY 13, 1897.

ONE CENT.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertisements "for nothing" or to give away his space for nothing. A newspaper is a business, and its columns are its stock in trade, and advertisements should be paid for, and matter in which part of the paper they appear.

The Continued Calls

upon The Ledger for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Successors.

Marriages, deaths, or other public entertainments where a fee is charged, and for obituary notices, reasonable of respect, etc. The Ledger will charge five cents a line, and hereby for the will be the unchangeable rule. This, however.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Manufacturers are unpleasant. The rate for business notices in The Ledger is 10 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line local insertion in the paper. "I'll tell you when to take it out," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—20 lines—the bill is \$15.25. When he finds it out there is a "kick" and a controversy. Followed probably by an angry feeling. Now, to obviate this trouble, and hereby for the will be the unchangeable rule. Let's have a definite agreement at the outset and the termination will be pleasant all around.

"All matter for publication must be handed in before 9 o'clock in the morning of each day."

"If you have an item of news, please call up The Ledger, Telephone 33, and send it in."

All Causes Have Their Effects

Since the middle of June we have sold three times the amount of goods than in the same given time since 1894. Why? Because money is more plentiful, and those that have the coin

Are Apt to Go Where They Get the Most and Best For Their Money.

When times were the hardest and most merchants bought the commonest of goods we kept on the even tenor of our way and bought only the highest class of merchandise. We may have missed some sales on low qualities, but we retained our high standard in our various lines, and as our people are now realizing better prices for their product and money is more plentiful we are reaping the benefit of our repete for handling Good Clothing only. To show our appreciation to our patrons we are going to offer you for the next ten days, beginning Saturday morning, July 10th, the greatest values in Men's all wool Cassimere and Cheviot Suits that were ever offered in this or any other market.

WEST VIRGINIA

Will Be the Battle Ground of the Great Miners' Strike.

Clearest Organizers, Labor Orators and Exhorters Will Be There

Spreading the Doctrine of Strike—With Coal Advancing, and Not Much of it on Hand, There Promises to Be a Hotting Time in the Coal Market.

PITTSBURGH, Pa., July 13.—On to West Virginia will be the cry this week of all the labor leaders interested in the coal miners' strike. During the week the clearest organizers, labor orators and exhorters will be at work in the West Virginia diggings, spreading the doctrine of strike. President Carney, of the Amalgamated association, and Rev. Winston Green, who were appointed organizers by the United Labor league, Sunday night left for West Virginia Monday morning, and six others, whose names have not yet been announced, will follow Monday night or Tuesday.

Pittsburgh's quota of organizers will be joined in West Virginia Tuesday or the next day by those from other parts of the United States. There will be enough of them to thoroughly cover the entire coal regions of the state. When they have finished their work they will come to Pennsylvania and the Georgia's coal district or Maryland. They will work among the miners of the New York and Cleveland gas fields, and the Westmoreland and Allegheny regions. If the strike is settled before that time, whatever success they may have in the West Virginia, Maryland, Cleveland and Westmoreland fields, the officials of the United Mine Workers, according to present indications, will have hard work in persuading the employees of the New York and Cleveland Gas Co. to strike. The officials are disappointed by the fact that the company is restraining them from going on the company's property. But this difficulty is overshadowed by the apathy of the miners themselves. As yet the miners developed the prevalence of a willingness to strike provided the Mine Workers' union would pay them their wages for the time they are out.

The feeling among the miners is exemplified in the failure to hold the much advertised meeting at Reulbach church Sunday afternoon. At the Plum creek, Sandy creek and Turtle creek pits none of the operators knew anything of the proposed meeting. Many of the miners said they would not strike under any circumstances. The Cleared bituminous coal district and what is known as the Mountain coal field along the line of the Pennsylvania railroad, between Towanda and Altoona, began receiving orders from the Pittsburgh district. The officials of the United Mine Workers are officials in deciding to make West Virginia the battleground of the strike, has caused alarm among the local people. Many of the miners are now in place emergency orders at good round figures with the operators in the Clearfield and mountain regions. The striking miners are successful in effecting a total suspension of coal production in West Virginia and the Georgia's coal district. The latter has one of the heaviest outputs of any coal region in the United States, and supplies the coal markets with the bulk of the coal during the strike of 1894.

With bituminous coal advancing, and not much of the product on hand, there promises to be exciting times in the coal market. It is known that there are a number of operators who are on small orders, and it is probable that a number of the smaller dealers will unite in making one purchase and thus protect their trade. The viable supply of coal is very small. There are about ten train loads of the Pittsburgh district, and the operators of the Fort Wayne railroad between this city and Alliance on which the railroad company is concerned. It was mined for the lake trade, but since held. Then there are 8,000,000 to 10,000,000 bushels on hand in the barges and along the rivers. This might as well be in the mines as far as satisfying rail demand is concerned. The coal will cost nearly as much to handle it as it cost to dig it, and it is put on the market it will be at a very high price. There are some operators, however, of the operators being able to put it on the market. The miners will watch the coal in the barges and attempt to make to load it for the railroad trade the handlers will be induced to strike. In this the miners expect to be successful.

Fairmont Mourns May Strike.
FAIRMONT, W. Va., June 13.—The operators at the 17 mines in this county which constitute the Fairmont coal region, on the day the strike of the great miners' strike, gave an advance of 5 cents a ton Monday to the 17 men. The men, however, with the five cents given the men Wednesday, brings the price to 40 cents a ton running coal, which is 10 cents more than the Pennsylvania and Ohio miners are striking for when the difference of railroad rates and seaborne taken into consideration. Nevertheless the sympathies of many of the miners of this region are with the strikers. Although the organizers, four of which are already in the region, will have a hard battle if they succeed in getting the men out, that may be the final result.

A Possibility That She May Be Released From an English Prison.
New York, July 13.—A dispatch to the Herald from Washington says: The chances of the release of Mrs. Maybrick from Woking prison, England, are considered to be more favorable than at any time during her imprisonment. Judge L. D. Varrill, of the Woking prison, has been recently called on by President McKinley, and the president is understood to have held out much encouragement for the prisoner.

MRS. MAYBRICK.
The miners' strike has caused the price of coal to still advance, and Monday it was \$3.25 per ton. The advance of 10 per cent. since the commencement of the struggle. The feature Monday in matters pertaining to the strike was the arbitration board, who are endeavoring by every means possible to bring about a peaceful conclusion the strike now in progress. The board held informal sessions Monday and in the interval interviewed quite a number of miners. The majority of whom are in favor of arbitration provided all of the operators will agree to the decision rendered. One of the dissenters is W. P. Dearm, president of the New York and Cleveland Gas and Coal Co. He declares he will not arbitrate and says the strike is the result of the machinations of politicians.

MRS. MAYBRICK.
Judge J. Varrill says: "My audience with the president was a very pleasant one, and I am very deeply interested in the matter and the documents and letters which I submitted to him were not given a mere passing glance, as the president considered them carefully. I am fully satisfied he has instructed the proper persons to take all their power to effect a speedy release. Ambassador Hay, as it is known, has already presented the petition and papers asking Mrs. Maybrick's freedom, and I firmly believe she will secure it."

"Undoubtedly the greatest difficulty experienced in getting this unfortunate woman released is the seeming indifference on the part of the people of America. They don't seem to care anything for her, or how long she remains in prison."

IN CONGRESS.

Union Pacific Railroad Affairs Occupy the Attention of the Senate.
WASHINGTON, July 13.—A discussion of Union Pacific railroad affairs occupied the attention of the senate Monday. The day began with a discussion of the proposed amendment of an agreement made some time since for the settlement of the government's claims against the road. Mr. Morgan spoke throughout the day, severely arraigning the Pacific railroad managers. He said the entire subject was disposed of by the withdrawal of the amendment. The deficiency appropriation bill was then taken up, and the committee on the subject of the Pacific railroad was discussed.

Senator Harris' Remarks in Nashville.
NASHVILLE, Tenn., July 13.—The special train conveying the remains of U. S. Senator L. C. Harris arrived at Washington at 7 o'clock Monday morning. The congressional committee accompanying the body was met by a committee of officials and citizens and at 10 o'clock Senator Harris' remains were taken to the capitol. During the day thousands of people visited the senate chamber and looked upon the remains. The train bearing the body left this city at 11 o'clock Monday night and will arrive in Memphis at 7:30 o'clock Tuesday morning.

Costly Mine Start Up.
LAWRENCE, Mass., July 13.—The Everett, Pemberton and Atlantic cotton mills of this city started up Monday after a week's shut down. The mills have in the aggregate more than 5,000 employees.

LIGHTNING

Strikes a Tent in the Militia Camp at Peakskill.

A Corporal Killed and Many Other Soldiers Badly Hurt.

The Dead Man Had Just Signed a Letter to His Parents When the Fatal Blow Was to Be Dealt.

New York, July 13.—Lightning struck the militia camp at Peakskill Monday afternoon, selecting the Y. M. C. tent as its object. One man was killed and many others were badly hurt. An instant after the bolt descended the tent was down and in flames. A general alarm was sounded, and the guardsmen and ambulance corps came to double quick. Almost every one under the canvas was shocked by the lightning. Corporal J. McDonald, of Company A, 224 regiment, New York, was the first to be killed. He was a young man, 21 years old. He was to have been married next Saturday evening upon the return of the regiment from camp.

The marks on McDonald's body were a slight burn on forehead, a small spot, a burn over the heart and a mark on the left shoulder. The face was of the most delicate tracery. The face was not distorted in any way, and the expression was calm and peaceful. The letter which McDonald had just written was to the young woman whom he was to have married. It was signed "Yours until death, Jim." He is said to have been in the act of addressing the envelope, having just signed the letter when the bolt struck the tent.

MINERS' STRIKE

Causes the Price of Coal to Advance in Pittsburgh—The Arbitration Board.

PITTSBURGH, Pa., July 13.—The miners' strike is causing the price of coal to still advance, and Monday it was \$3.25 per ton. The advance of 10 per cent. since the commencement of the struggle. Dearm, president of the New York and Cleveland Gas and Coal Co. He declares he will not arbitrate and says the strike is the result of the machinations of politicians.

The strikers made further advances Monday in getting out practically every mine in the county. The operators, who still remain loyal to their employers.
At a mass meeting held at West Point Monday, Vice President S. Kay, of the Miners' association, said he believed the West Virginia miners would win the case. He said the miners were not only in a comatose condition of the time since, Mr. Lathrop had ordered that Mary and Yonaga, a prominent resident, and others be set at liberty.

Henry V. S. Lathrop, resident minister to Russia, died at 10 o'clock Monday at the Lithod residence, Fort Street, West Detroit. He was 60 years of age. He had been a member of the board of directors of the Michigan Central railroad, and was given an enthusiastic reception. He received the ministerial authorities of the United States, and they were disposed to comply with his orders. He also visited the hospitals, and setting upon a petition for the release of the prisoners.
